The Banff DaVinci Quest

You have entered a world of history and intrigue! On the Banff DaVinci Quest each team's challenge is to navigate throughout Banff in search of your quest's Holy Grail. With the guidance of your map and passport make your way on trail and on road to uncover clues that will lead you to your cryptex. The individual letter-clues, once all collected, must be decoded to create a password, open the cryptex and ultimately find your treasure.

The Banff DaVinci Quest can be organized as a competitive event among different teams or an intriguing challenge for each of your groups to complete at their leisure. In either case it is a fun, interactive, team building activity that is perfect for corporate groups, families, or small teams to have fun in Banff.

A successful conference is the result of a major investment of time and sound planning. In today's demanding business world, workplace teams face intense pressure to generate tangible results. On a typical day, employees find themselves scrambling to put out the latest fire, inundated by e-mail, and swamped with voice messages. Few teams devote the time, money or energy to team building during conferences or otherwise. This is a tragic oversight.

The importance of including activities in your conference investment is made clear by the results. Taking your delegates out of the boardroom and into a fun interactive environment creates synergy. Encouraging fun among team members generates attachment, empathy and communication which are all elements critical for a successful working environment. Fun also leads to happier more fulfilled employees, which has been proven to positively effect the bottom line.

Your Banff Conferences will be the most acclaimed and successful when you add Fun Team Building Activities such as the Banff DaVinci Quest powered by Discover Banff Tours.
